DESIGNPhilippines

Design Philippines is a branding initiative that positions the Philippines as a sourcing destination for finely crafted products for the world market. It is a design movement that nurtures and celebrates the creativity and originality of a globally competitive and passionate community of Filipino designers and craftsmen.

As a movement, Design Philippines has taken shape and now speaks with recognized authority in the world of design.

The Art of the Craftsman

The Craftsman's hands work materials to make it their own. Men and women working with fiber, shells, wood, dyes, bending their backs over looms, chipping away with their hands to reveal the design etched in their mind.

This handiwork creates a connection that moves people. Visual and tactile impressions that pique curiosity, leading to a desire to connect.

Even own.

This spirit of craftsmanship is brought into the creation of Filipino products for the global market. Philippine design traditions, techniques and materials being hewn to create new expressions, innovate with products that are made the Philippine way -- the Craftsman's way.

With soul.

THE CREATIVE TEAM

JOSIE NATORI

Josie Natori is a renowned international designer and CEO of the Natori Company. Born in the Philippines, she left Manila for New York and studied economics at Manhattanville College. Following graduation, she worked at Merrill Lynch as the first female vice president in investment banking and became a rising star of Wall Street.

From the corporate jungle, Natori ventured into fashion and founded Natori Co. After more than three decades, the company has grown into a lifestyle brand that includes lingerie, ready-to-wear apparel, home accents, fragrance, and eyewear, selling to upscale department stores in the US and in at least 15 countries worldwide.

BUDJI LAYUG

International designer Budji Layug is a leading light in the Philippine design and home industry. His fame as a furniture designer stems from his commitment to organic forms and materials, and his fresh interpretation of those forms into uniquely modern designs. In designing furniture, he is as devoted to craftsmanship and detailing as he is to function and basic design.

Budji studied at the New York School of Interior Design and took up architecture at the University of Sto. Tomas (UST). A Renaissance Man who continues to reinvent himself and improve his craft, he believes that good design is good business. In all his endeavors, his simple design philosophy reigns: Design in every discipline attains excellence when form and function co-exist harmoniously.

WEAVES OF THE PHILIPPINES / CRAFTSPOTS Ethnic. Artisanal. Uniquely Filipino.

Weaves of the Philippines is an initiative of CITEM, in partnership with the Garments and Textile Industry Development Office (GTIDO), to raise awareness on the rich weaving tradition of the Philippines. Featured installations will span the three major island groups of the country: *Abel* of Ilocos Sur (Luzon), *Banig* of Samar, *Piña* of Aklan (Visayas), and *T'nalak* of South Cotabato/Davao (Mindanao).

Design Week Philippines is a multi-faceted platform that brings together creative visionaries from diverse backgrounds and disciplines in a series of programs and events that celebrate design and artistry.

Proclamation No. 277 signed by President Benigno S. Aquino III on October 20, 2011, declares the third week of March and October of each year as Design Week Philippines.

Positioning the Philippines as Asia's design destination, Design Week Philippines fosters connections between creative industry practitioners and design enthusiasts in an interactive sharing of knowledge, ideas, and trends. It has become a national agenda that nurtures the creativity and design capability of the Filipinos to usher in trade opportunities.

DESIGN TOURS

Design Tours is an integral component of Design Week Philippines, which aims to highlight key destinations within Metro Manila to provide further glimpse into the rich cultural and creative capital of the Philippines.

This March 2014, the Design Tours will focus on a Walking Tour itinerary that will give visitors insights into the historical landmarks of Manila while, at the same time, will provide a juxtaposition of the various cultural and historical influences that have also shaped the Philippine design sensibility. It is a half-day interactive itinerary.

The Design Tours will also further underline the core message of Design Philippines and Manila FAME --- "The Art of the Craftsman = The Soul of the Philippines" --- to provide participants a multi-dimensional appreciation of the Philippines beyond the walls of the exhibition venue.

DESIGN TALKS

Design Talks is the venue where ideas are shared and cultivated, experienced and remembered, and pursued and created. It focuses on the idea of design thinking, the balance between the creative and intuitive way of thinking, and the rational and analytical way. By putting together people with different backgrounds in one group, it broadens the collective thoughts and outputs that can be discussed and created, as compared to putting together the same kind of people in one.

Continuing the discourse of developing the creative mindset and to further expand the idea of design thinking, the framework for this March 2014 edition of

Design Talks revolves around DESIGN INNOVATION. It will feature a set of personalities highly acclaimed in their own fields. There will be three individual tracks that each focuses on the idea of Good DESIGN and a force of innovation:

A NEWSPAPER COMMITTED TO **TRUTH**

The Philippine STAR is the flagship title of the country's largest and most successful print media enterprise, the Star Group of Publications.

"Country's largest and most successful print media enterprise"

Owned and published by Philstar Daily Inc., **The STAR** is a vaunted pillar of Philippine journalism whose integrity is anchored on the Biblical motto, "Truth Shall Prevail". Veteran newsmen Max Soliven, Betty Go-Belmonte and Art Borjal founded The Philippine STAR on July 28, 1986 in the heels of the EDSA Revolution.

"Informing and inspiring readers the world over"

Through the years, **The STAR** has lived up to its mission of informing and inspiring readers the world over.

It is a hall of fame awardee of the prestigious Newspaper of the Year award given by the Rotary Club of Manila (2006, 2011 and 2012), which recognizes excellence in Philippine journalism.

"A P4-billion multimedia enterprise with a global presence "

The Philippine STAR's growth under the leadership of its president and CEO, Miguel G. Belmonte, has been phenomenal. From an eight-page single-section newspaper that first hit the streets in 1986, **The Philippine STAR** is now a P4-billion multimedia enterprise with a global presence through its popular website, www.philstar.com, and multi-platform offerings that make it a dominant force in Philippine media.

"The newspaper most trusted by Philippine companies and brands"

For the country's premier establishments, notably Jollibee, Chowking, Starbucks, leading hotel chains, restaurants and hospitals,

The STAR is their newspaper of choice. **The Philippine STAR** also remains the print medium most trusted by Philippine companies and brands to get their message across as it continues to garner the highest advertising gross among all print media entities since 2006.

The Philippine STAR received the prestigious Marketing Company of the Year Award from the Philippine Marketing Association in 2006 in recognition of its business success and market leadership.

If you think we reach
only businessmen,
think again.

We have a significant number of women readers.*

In business, it's no longer just the men who rule. Women have become important power players in the industry. So it's no surprise that we've gained more women readers over the years.

Majority of our readers are influential people whose decisions impact greatly on today's business environment. People who spend their hard-earned currency on high-ticket items. 63% of our market are in their 20's to 40's. Around 40% engage in an active lifestyle. And yes, we do reach the class C market.

While it's true that we reach the privileged crowd, we've found that many of them eat at fast-food restaurants and buy their gear at the local sports shop.*

We reach a broader market than you'd expect. If you think BusinessWorld readers think only of business, think again.
